1. Weekly Workout Schedule

To maximize fat loss while building lean muscle, you will work out **3 days a week** with at least one rest day in between. This allows your body to recover and get stronger.

- **Monday:** Day 1 (Full Body - Strength Focus)
- **Tuesday:** Active Rest (Light walking or stretching)
- **Wednesday:** Day 2 (Full Body - Core & Balance Focus)
- **Thursday:** Rest Day
- **Friday:** Day 3 (Full Body - Cardio & Endurance Focus)
- **Saturday & Sunday:** Rest Days / Weekend Recovery

2. Exercises, Sets, and Repetitions

Each workout is designed to take exactly **30 minutes**, including a 3-minute warm-up and 2-minute cool-down. Choose a dumbbell weight that feels challenging but allows you to complete all repetitions with

2. Exercises, Sets, and Repetitions

Each workout is designed to take exactly 30 minutes, including a 3-minute warm-up and 2-minute cool-down. Choose a dumbbell weight that feels challenging but allows you to complete all repetitions with good form.

Warm-Up (3 Minutes - Do this before every workout)

- Arm circles: 30 seconds
- Bodyweight squats: 1 minute
- Torso twists: 30 seconds
- Gentle marching in place: 1 minute

Day 1: Full Body - Strength Focus (25 Minutes)

Perform these exercises one after the other, resting after each set.

1. Goblet Squat (Hold one dumbbell vertically at your chest)

Day 1: Full Body - Strength Focus (25 Minutes)

Perform these exercises one after the other, resting after each set.

- 1. Goblet Squat (Hold one dumbbell vertically at your chest)**
 - *Sets:* 3
 - *Reps:* 10 to 12
- 2. Dumbbell Floor Press (Lie on your back, press dumbbells up toward the ceiling)**
 - *Sets:* 3
 - *Reps:* 10
- 3. Dumbbell Romanian Deadlifts (Hold dumbbells in front of thighs, hinge at your hips, keep back flat)**
 - *Sets:* 3
 - *Reps:* 12
- 4. Plank (Hold on elbows/toes or knees)**
 - *Sets:* 3
 - *Hold:* 20 to 30 seconds

Day 2: Full Body - Core & Balance Focus (25 Minutes)

Day 2: Full Body - Core & Balance Focus (25 Minutes)

Perform these exercises one after the other, resting after each set.

- Dumbbell Reverse Lunges (Step back, lowering your back knee toward the floor)**
 - Sets: 3
 - Reps: 8 per leg
- Dumbbell Bent-Over Row (Hinge forward, pull dumbbells up toward your hips)**
 - Sets: 3
 - Reps: 10 to 12
- Standing Dumbbell Shoulder Press (Press dumbbells from shoulders overhead)**
 - Sets: 3
 - Reps: 10
- Bird-Dog (On hands and knees, reach opposite arm and leg out)**
 - Sets: 3
 - Reps: 10 per side (no weights needed)

Day 3: Full Body - Cardio & Endurance Focus (25 Minutes)

Perform these exercises back-to-back as a circuit to keep your heart rate up for weight loss.

- Dumbbell Thrusters (Squat down, then press dumbbells overhead as you stand up)**
 - Sets: 3
 - Reps: 10
- Dumbbell Glute Bridges (Lie on back, knees bent, hold a dumbbell on your hips, push hips up)**
 - Sets: 3
 - Reps: 12 to 15
- Dumbbell Bicep Curls**
 - Sets: 3
 - Reps: 12
- Mountain Climbers (Bodyweight cardio move in a plank position)**
 - Sets: 3
 - Reps: 30 seconds (fast-paced)

4. Simple Nutrition Suggestions (Non-Vegetarian)

For weight loss, you don't need a restrictive diet. Instead, focus on creating a small, sustainable calorie deficit (eating slightly fewer calories than you burn) and prioritizing high-protein, whole foods.

- **Prioritize Lean Protein:** Protein keeps you full and preserves muscle while you lose fat. Include chicken breast, turkey, lean ground beef, eggs, and white fish (like tilapia or cod) in your meals.
- **Smart Carbs:** Instead of skipping carbs, choose complex carbs like sweet potatoes, brown rice, oats, and quinoa. They provide lasting energy for your workouts.
- **Load up on Veggies:** Fill half your plate with non-starchy vegetables (spinach, broccoli, zucchini, bell peppers). They are low in calories but very filling.
- **Hydration:** Drink at least 2.5 liters (about 8–10 cups) of water per day. Sometimes, your body mistakes thirst for hunger.
- **A Simple Balanced Meal Idea:**
 - *Lunch/Dinner:* Grilled chicken breast (size of your palm), a cup of roasted broccoli, and 1/2 cup of brown rice or sweet potato.

- *Lunch/Dinner:* Grilled chicken breast (size of your palm), a cup of roasted broccoli, and 1/2 cup of brown rice or sweet potato.

5. Recovery and Sleep Tips

Exercise triggers weight loss, but recovery is where the actual fat loss and muscle toning happen.

- **Aim for 7 to 9 Hours of Sleep:** Quality sleep regulates hunger hormones (leptin and ghrelin). If you are sleep-deprived, you are more likely to crave sugary, high-calorie foods.
- **Active Recovery:** On your rest days, try to go for a 20-minute leisurely walk. This improves blood circulation and helps reduce muscle soreness.
- **Manage Muscle Soreness (DOMS):** It is completely normal to feel sore as a beginner. Gentle stretching, warm baths, and staying hydrated will help soothe your muscles.
